- MERN Stack
- MySQL
- Java, C/C++
- Object Oriented Programming
- Graphic Design
- AI/ML

LANGUAGES

- English (Fluent)
- French (Basics)
- Hindi (Native)

PROFILE

I am a passionate and dedicated Third-year Computer Science Engineering student with a strong foundation in programming and software development. I have proficiency in C, Python, MySQL, Java, and Object-Oriented Programming (OOP), along with expertise in full-stack web development. I am eager to solve complex problems, build efficient applications, and continuously expand my technical skills. With a keen interest in both backend and frontend technologies, I strive to develop scalable and user-friendly solutions. I am always open to learning new technologies and collaborating on innovative projects.

WORK EXPERIENCE

MyJobGrow — OCT 2024 - DEC 2024
Intern

- Develop and execute full stack web projects and single page applications.
- Used React.js, MongoDB Atlas, Express.js and Node.js
