- Frontend Development
- Backend Development
- MERN Stack
- MySQL
- Java, C/C++
- Object Oriented Programming
- Graphic Design

LANGUAGES

- English (Fluent)
- French (Basics)
- Hindi (Native)

PROFILE

I am a passionate and dedicated second-year Computer Science Engineering student with a strong foundation in programming and software development. I have proficiency in C, Python, MySQL, Java, and Object-Oriented Programming (OOP), along with expertise in full-stack web development. I am eager to solve complex problems, build efficient applications, and continuously expand my technical skills. With a keen interest in both backend and frontend technologies, I strive to develop scalable and user-friendly solutions. I am always open to learning new technologies and collaborating on innovative projects.
